Summary

Experienced full-stack developer specializing in the MERN stack with expertise in both frontend and backend development. Passionate about tackling complexities and dedicated to delivering high-quality, scalable solutions.

Additionally, Proficient in Flutter, Dart, and Firebase technologies for seamless cross-platform mobile development and real-time database solutions integration into projects.

Technical Skills

- Frontend : HTML, CSS, JavaScript, React.js, Redux, Flutter
- Backend : Express.js, Node.js, Dart
- Database : MySQL, MongoDB, Firebase
- Other relevant skills (e.g., RESTful APIs, GitHub, Postman, Provider)

Projects

Address Buk (Flutter , Live Project)

Search Application

AddressBuk is a live project, offering real-time access to company and institution searches. Powered by Flutter, Dart, and Firebase, it provides an intuitive interface and efficient search features for streamlined access to information.

Shopping Application (Flutter)

API Based Application

Developed a Flutter-based application inspired by Amazon, seamlessly integrating APIs to deliver an intuitive shopping experience. Showcasing expertise in front-end development, the project features user-friendly interfaces and maximizes API functionality.

Social Zone (Mern)

Social Media Platform - (Frontend- Backend Development)

A React-based social media platform, equipped with a simple CRUD application using MERN Stack, empowers users to efficiently manage their online presence. It offers a range of essential tools for social media management.

Disney_Hotstar_Clone (React)

API Based Application

Developed a Disney+ Hotstar clone using React and APIs to offer an extensive array of entertainment content, this project highlights my expertise in front-end development, seamless API integration, and the creation of user-friendly interfaces.

Electric Vehicle Recharging Bunk (PHP - Smarty)

Minor Project

Integrated recharging on electric vehicle. It helps in easy way of charging of EV station and ensures smooth journeys long distance.

05/2022 - 10/2022

Civil Registry (PHP - CodeIgniter)

Major Project

Generates the Documents, Cards, Certificates. The primary objective of this Website is to give awareness about the government or legal documents and its registration details as well as to help to register or apply for those documents.

10/2022 - 04/2023

Experience

Softzane Solutions	10 Month

Flutter + MERN
