Softzane solutions specialize in the development of web applications development and smart phone applications development.

Projects

Bookz (E-Commerce Application)

Bookz is a dynamic e-commerce app built with Flutter, Dart, Firebase, and Getx. It offers real-time interactions and seamless user experiences for book enthusiasts. Features include user authentication, real-time updates, checkout, and payment gateway integration, all powered by Firebase. Getx ensures efficient state management and smooth navigation, making Bookz a reliable and user-friendly book shopping platform.

Shopping Application (API Based Application)

Developed a Flutter-based application inspired by Amazon, seamlessly integrating APIs to deliver an intuitive shopping experience. Showcasing expertise in front-end development, the project features user-friendly interfaces and maximizes API functionality.

Address Buk (Search Application)

AddressBuk offering real-time access to company and institution searches. Powered by Flutter, Dart, and Firebase, it provides an intuitive interface and efficient search features for streamlined access to information.
